* see Incentive Scheme

AIRPORT CHARGES

Charge type	Price, EUR (without VAT)	Unit
Take-off/Landing charge	2.05	per 1000 maximum permitted take-off mass kilograms (by rounding up to 10 kg) of aircraft for every take-off and landing. The training flight hour is equated to one take-off and landing, but for the second and each subsequent hour a coefficient of 0.75 is applied. For carriers using flexible maximum take-off masses, the calculation shall be made considering the maximum take-off mass with which the aircraft is certified in its state of registry and, if the aircraft has several maximum take-off masses, take into account the take-off maximum mass. Exempted from charge: <ul style="list-style-type: none">- Special flights exclusively for the official transport of the reigning monarch and members of his immediate family, heads of state, heads of government and government ministers;- Flights intended for search and rescue operations by order of the competent aviation search and rescue service;- Military and state aircraft flights.
Aircraft Parking Charge*	0.14	per 1000 maximum permitted take-off mass kilograms of aircraft/hour, but not less than 30.00 €. First hour and the first 3 hours for flights further than 4200 km (by measuring the shortest distance) – free of charge. Exempted from charge: <ul style="list-style-type: none">- Special flights exclusively for the official transport of the reigning monarch and members of his immediate family, heads of state, heads of government and government ministers;- Flights intended for search and rescue operations by order of the competent aviation search and rescue service;- Military and state aircraft flights.
Terminal Navigation Charge	https://www.lgs.lv/en/2019/10/tariffs-and-services-calculator/	Administered by Latvijas Gaisa Satiksme

* if a long term parking agreement has not been concluded. To conclude an agreement, please contact Aviation Services and Business Development Department.
